### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on December 6, 2005 has been entered.
2. In view of the papers filed December 6, 2005, it has been found that this application, as filed, through error and without deceptive intent, improperly set forth the inventorship, and accordingly, this application has been corrected in compliance with 37 CFR 1.48(a). The inventorship of this application has been changed by adding the inventors: *EGLE, EDWARDS, STEFANAC, XIN, ARORA, and MICHNE*.
3. The Information Disclosure Statements filed December 6, 2005 and December 12, 2005 have been considered. Based upon the prior art cited, the closest prior art reference is DE 24266876 (Reference BA). The difference between the instantly claimed compound and the prior art compound is the point of attachment of the pyridine ring and the phenyl ring to the 1,2,4-oxadiazole ring. For the instantly claimed compound, the pyridine ring must be attached to the carbon atom next to the nitrogen atoms of the oxadiazole ring. In the prior art compounds, the phenyl ring is in this

position. There is neither teaching nor suggestion to modify the prior art compounds to derive those instantly claimed. Accordingly, the claims are allowed.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zinna N. Davis whose telephone number is 571-272-0682.

6. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
